## **About Engineers & Scientists of CA, Local 20**

The Engineers and Scientists of California Local 20, International Federation of Professional and Technical Engineers (ESC 20, IFPTE), AFL-CIO & CLC is a dynamic, democratic and activist labor union that represents more than 7500 workers throughout Northern California. The Local is headquartered in Oakland and has an experienced, activist, and united Executive Board. ESC Local 20 members are highly-skilled professionals employed principally at Pacific Gas and Electric Company “PG&E”, Kaiser Permanente, private and public health care facilities, local and federal government agencies, and legal non-profits.

Employment through the ESC 20 Hiring Hall provides a gateway to a full-time technical job at PG&E with outstanding pay, benefits, and a union contract.

## **About Pacific Gas & Electric Company (PG&E)**

Based in San Francisco, PG&E, a subsidiary of PG&E Corporation, is one of the largest combined natural gas and electric utilities in the United States. PG&E employs over 24,000 employees to deliver utility services to over 16 million customers in Northern and Central California.

*Pacific Gas and Electric Company is an Affirmative Action and Equal Employment Opportunity employer that actively pursues and hires a diverse workforce. All qualified applicants will receive consideration for employment without regard to race, color, national origin, ancestry, sex, age, religion, physical or mental disability status, medical condition, protected veteran status, marital status, pregnancy, sexual orientation, gender, gender identity, gender expression, genetic information or any other factor that is not related to the job.*

## **Department Overview**

*Electric Operations* is responsible for every aspect of PG&E's electric distribution and transmission operations, including planning, engineering, maintenance and construction, asset management, business planning, restoration and emergency response.

As part of the Electric Operations Dept., *Electric Operation's Service Planning and Design* (SP&D) supports both gas and electric operations through its customer project management and its design and estimating functions.
